Memorial

Robert Milson

Rob Milson passed away 2nd December 2013. An Edmonton Branch AGS member, he became a dear friend of Grande Prairie Branch. Rob visited our meeting to share some of his knowledge on genealogy. He also was a speaker when our branch held Genfair, and with Joanne, his wife, he brought tables of books and maps for sale. Many of you may remember his daughter Keltie coming to talk at our branch meeting about reading old handwriting, and his son Norman piping in the head table at many AGS banquets held in Edmonton. Our condolences go to his family.

Editor's Notes

Judy Bradley AGS #2688

We will be a very busy group for a short time, but then we will be able to pursue our own genealogy, or help our friends with theirs! That is exactly what Margaret Kay stood for. Helping our society grow and prosper, both at our branch level, and at the provincial level, as well as helping our fellow genealogy buffs.

We might help through volunteering to hold a position, or by helping to raise the funding required for the Alberta Genealogical Society. AGS includes our branch. We are but a branch of AGS. AGS was formed first, and then gradually interested persons created branches throughout our province. These branches were all formed with the assistance of our parent core group. The support they gave us was both monetary and practical. Margaret Kay understood this. The stronger we make AGS through our support, the stronger we, the Grande Prairie and District Branch of AGS, can become.

So when you are asked if you have some time to help the society, please say yes. Carefully consider how much time you can spend helping. I know you will have a rewarding experience.

Enjoy!

Judy

Margaret Kay Scholarship

This scholarship may be given annually to a fellow Canadian hobby genealogist. You may solve your brick wall by taking a course and learning where to look for your answer! GP AGS wants to help a deserving researcher. Please consult our website for application and further information. **HS**
